## TENSE CURVE

Designed by Piergiorgio Cazzaniga, Michele Cazzaniga

Tense, MDF Italia's elegant and versatile table, extends its already wide collection with a brand new proposal: Tense Curve, featuring a soft and sinuous silhouette.

The new version originates from designers Piergiorgio and Michele Cazzaniga's will to undertake new formal researches, that enabled them to approach the round shape, that allows to increase the conviviality of guests, who can interact when they are sitting, with no sight restrictions.

Presently available in white resin, reconstructed stone, wood and carbon, Tense Curve can be ideally placed in both dining rooms and living areas, and in working contexts, where oval-shaped tables are increasingly appreciated in meeting rooms.

### FRAME AND TABLETOPS

Tables featuring mono-material finishes.

The important technological innovation it incorporates, combined with the tensioning capacity of the components makes it possible to build tabletops in large sizes.

The 35mm thick tabletop is a load-bearing composite board built with an internal frame consisting of either aluminium profiles and polystyrene filler. 35x35mm steel legs with internal structural tie-rod.

Height 73 cm.

- MATT WHITE, made of acrylic resin and rock minerals. Tabletop, edges and legs covered with a 3 mm thick sheet of resin.
- NATURAL OAK WOOD with transparent acrylic finish. Top, edges and legs coated by 3mm thick solid wood.
- STONE, in reconstructed stone, transparent acrylic finish. Top, edges and legs coated with application of 3mm thick material.
- CARBONE, created in solid natural oak wood, thickness 3mm, subjected to surface acid etching treatment applied by using natural acids without chemical additives.
